devolo Magic 2 WiFi

Welcome the digital future in your own four walls! How? With the devolo Magic 2 WiFi and its magical properties. It makes you ready for beyond tomorrow - today. Mesh Wi-Fi integrates all devolo Magic adapters and creates a seamless network magically - for wonderful connections to the Internet in any room, on the balcony and in the garden. The Wi-Fi ac standard ensures incredible peak speeds of up to 1200 Mbps and pure, digital freedom. And without buffering of course, since the high-performance Powerline technology can span extremely long distances of up to 500 metres. So streaming, gaming, home office or virtual reality are simply even more enjoyable with devolo Magic 2 WiFi! And static devices such as smart TVs or consoles can also be used, since they can be connected easily thanks to two Gigabit LAN connections. You can also keep a close eye on all devolo Magic adapters conveniently via the innovative devolo App. Thanks to super-smart Plug & Play, simply unpack, plug in and get going: non-stop magical and universal multimedia enjoyment, now and in the future - with devolo Magic 2 WiFi!

Mesh Wi-Fi
Up to 2400 Mbps
2x Gigabit LAN
Range up to 500 metres
devolo Magic 2 WiFi 2-1

- Invisible forces are at work: novel Mesh Wi-Fi and innovative Powerline technology links all devolo Magic adapters to an associated network and gets you seamlessly onto the Internet anywhere in the home, with the strongest connection.
- Exceeds your imagination: surf the net wirelessly at up to 2400 Mbps! Streaming, gaming, virtual reality - and all of them magically easier, faster and more reliable than ever before.
- All-in: connect your static devices such as smart TVs, consoles or PCs via two Gigabit LAN connections.
- We’ve thought of everything: thanks to the integrated power socket, you won’t lose out on any power connections.
- The perfect solution for long distances: easily covers large distances and always provides a strong connection, even over distances up to 500 metres. From the cellar to the attic and down to the garden - simply all through the house.
- Organises the setup: Simply plug into the power socket and thanks to the smart Plug & Play, the adapters connect to each other in just a few seconds.
- Top-end technology from Germany: since 2002, devolo has been developing innovative products with passion for millions of happy, networked customers all over Europe. With more than 300 awards to its name.
- A real team worker: compatible with all routers, devolo Magic adapters and HomeGrid Forum-certified products. dLAN® Powerline adapters and other HomePlug AV products are not supported. Different technologies can be used in parallel in a single household.
- Our promise: 3-Year manufacturer’s warranty.
