

devolo Home Control

Siren

Reliable. Flexible. Loud.

The **devolo Siren** give your smart home a voice. At 110 decibels, it alerts you when your loved ones and your valued possessions are in danger, providing a reliable and unmistakable signal in the event of break-ins, fire, water damage and other dangers.

devolo Home Control

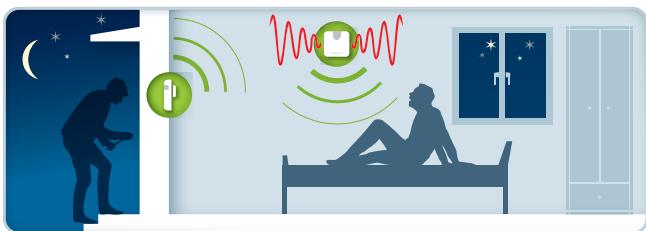

Siren

Product features:

- Alarm sounds (110 dB), for example, in case of break-in, fire, water damage and many other dangers.
- Effective protection via audible warning in conjunction with other Z-Wave® Home Control components* (door/window contact, motion sensor, smoke detector, etc.).
- 7 different alarm tones can be selected. Additional purely visual alarm via red LED.
- A variety of alarm scenarios can be configured at the same time (,Basement door open', ,Movement in the garage', ,Water leaking from the washing machine', etc.).
- Just unpack it and plug it into the electrical socket (standard 230 V electrical socket). In the case of a power failure, it can operate up to 24 hours using the integrated battery.
- Intuitive operation via web browser or free app for smartphones and tablets.
- 3-year manufacturer's warranty.

Application example:

if

the Door/Window Contact* reports an opened door (a break-in)

then

the Siren sounds.
