

devolo GIGAGATE

The high-speed Wi-Fi bridge for
a high-end multimedia experience

The devolo GigaGate brings the power of your Internet exactly where you want to use it. Consisting of a „BASE“ and „SATELLITE“, the GigaGate provides an effective, targeted connection between your router's location and your home media centre using the 5 GHz band. The gigantic 2 Gbps transmission capacity makes for an unprecedented multimedia experience. Securely connect your game console, smart TV, PC and more over five media ports, while the Wi-Fi access point offers optimal coverage for your smart phone, tablet and laptop...

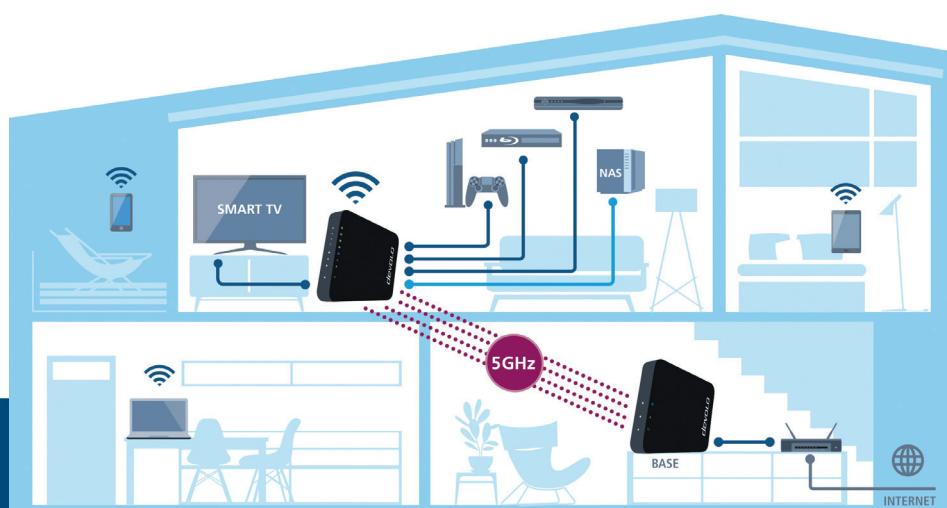

devolo GIGAGATE

FULL-SPEED INTERNET ALWAYS EXACTLY WHERE YOU WANT IT!
